SUPPORTING IN UNITY : SERVING WITH HONOR

The 'Unification Party' was formed to represent and defend the United States of America by creating a third majority party to unify all Americans. We believe in electing people of integrity into public office, restoring honor to our men and women in the armed forces and restoring dignity to our first responders and veterans. We are a unified party of those who know what it means to sacrifice for land and liberty. We are the first and last line of American patriots who have chosen to keep the torch of liberty burning against both domestic and foreign threats. We believe in giving America back to the people.

The 'Unification Party' serves as the backbone of American Democracy by preserving the checks and balances of the constitution and the rule of law by electing people of integrity into public office. We believe in serving with honor and supporting all through unity. The Unification party of the United States of America needs your help in building our party to ensure we survive through the many real challenges and threats we face throughout our nation and around the world. Creating relationships is one of the most natural of human interactions and yet the most complex. How does one read into another and build a foundation for growth and respect? The Unification Party accomplishes this through constant interaction. We believe in coming down from our ivory towers and listening and supporting the people of the united states. We believe in building more of just a constituent relationship , but a relationship that will identify your needs, learn how we can help you grow and prosper, and protect your interests!

We have come to a turning point in American history where we must decide whose hands we place the sovereignty of our nation in. When there is a vacuum of leadership within the nation it opens up old wounds of which we thought were healed. Wounds of civil insurrection, wounds of anarchy, wounds of division and the 'fog of war' of misinformation and conspiracy theories that are tearing apart the fabric of our nation. During the Civil War the nation had to decide if we would coexist 'half slave and half free'. During the Cold War we had to decide if we would exist 'half communist or half free'. In this century we must decide if we are going to continue to exist. The decades of infighting between the two parties have slowly eroded the columned marbled halls of our Democracy into dust; a house divided against itself cannot stand. You; the nation must decide how you wish history to write our fate, whether this 'Great Experiment' will fall apart through two parties deadlocked in serving themselves, or place the fate of the nation in the hands of The Unification Party. A new party birthed by patriotism, unified through Democracy and baptized in freedom; a party unstained by corruption and the pride of voting down party lines, a party destined to serve with unburdened leadership that will bring about a new dawn in America from sea to shining sea. Where do we stand? We stand with our Founding Fathers and the patriots of old who sacrificed their lives for freedom and democracy and we must never allow those sacrifices to be in vein. We stand with our first responders, our teachers, our armed forces, our military veterans and all those Americans who are struggling, who have continued to build our nation without praise and without thanks still believing in themselves and the American dream. Well, they have been denied honor and support for far too long. If I am wrong, then I misjudged the pulse of the nation, but I know in my heart that I am right, because the pulse of the nation is getting weaker. Weaker, because we give too much of our American blood to support and defend those that only wish to destroy us and weaker because we refuse to exercise the muscles of our nation's unchallenged military might, for fear of poor trade negotiations with countries who take advantage of our military and trade secrets, while they nurture their own economy and extend the reach of their military capabilities.

THE UNIFICATION PARTY

SUPPORTING IN UNITY : SERVING WITH HONOR

Continues... We will not only acknowledge but celebrate the service and self-sacrifice of our first responders, armed forces and our priceless veterans who must be treated honorably in times of peace and in times of war. For us to ensure endless opportunities for all Americans we must stop supporting those representatives who are dedicated to expanding our nation's political divide by voting down party lines, there is no one 'party mold' that can contain the ideals of freedom, the light of liberty, and the endless possibilities Democracy grants to all Americans. We must question those representatives who initiate to the floor of congress the same empty foreign policies and the same stale domestic agendas that do not relate to our new world, because to live in the past ensures the destruction of our future.

The 'Unification Party' needs your help expanding throughout the nation. With every passing day we lose priceless opportunities to shape and stabilize the nation the way our founding fathers intended it to be. We need your help to reclaim the United States from those who take advantage of the power of your vote to further their own self-interests instead your own. Every American can no longer afford to take the path of least resistance, while other nations work tirelessly to undo the foundation of our democracy, you must act, and contribute to the cause of freedom, do not stand by to be an eyewitness to the current events created by two parties deadlocked, which are paralyzing our nation. We must act to strengthen our resolve to uphold our ideals and our solemn responsibilities of self-sacrificing for others when they are in need, fighting the good fight no matter what the costs, and forging ahead into new areas of innovation and discovery. Please join the Unification Party and help us restore this 'Great Experiment' so we may forever be the masters of our own destiny and renew hope for countless Americans for generations to come!
